Simple from start to finish

Everything we do is designed to make your life that little bit easier. Here's the process that we'll go through with you:

01

Getting to know you

First, we set up an initial meeting to talk about your situation and how we can help. Come and have a chat, there's no obligation to take things further.

02

Agreeing on what you need

Together we agree on what you would like us to take care of. We can provide a cost estimate for your specific needs before you make any decisions.

03

Finalising the details

To enable us to help, you'll need to sign two documents:

- > An Enduring Power of Attorney, which gives Public Trust the authority to act on your behalf.
- > Your instructions to us, detailing what we have agreed.

04

Getting on with things

A dedicated trustee will manage your work and coordinate any services needed, such as accountants, tax specialists and lawyers.

05

Staying in touch

Your expert works for you, so they will be in touch, providing you with updates of the work they have completed.

A fair rate you can rely on

As Personal Assist is tailored to your individual needs, the costs will depend on the services that you require. Talk to us about your needs, and we can provide you with a cost estimate before you make any decisions.
